

RTMM MedEvac Dispatch #E032B
Equipment: Helicopter or Amphibian
Snow Cat Accident – Near Frank Mackie Research Camp

Special RTMM Scenery Requirements:

- Summit Ice Station
- Soule Glacier

Starting Location: Soule Landing

- Amphibian: Position at: N55 48.7283 W130 8.5813 Heading 346.7°
- Helicopter: Position at: N55 48.7382 W130 8.6075

Location of Emergency: Bearing from Soule Landing is 332° for 33 miles.

Medical Destination:

Amphibian: Stewart Trauma Centre – Medical Dock
Helicopter: Stewart Trauma Centre - Helipad

Nature of Emergency: A snow cat turned over injuring the two people inside. One is severe and one is ambulatory but needs medical attention. They are in the proximity of the Frank Mackie Research Camp.

Emergency Location: N56 12.1697 W130 15.0658 [Topo Map](#)

Emergency Way Point: E032B

- **Instructions:** Set the GPS for way point for E032B. In bad weather, you can fly just above the Glaciers winding your way toward the Frank Mackie Research Camp. There is a hard ice runway and a helipad at the pickup point. Pick up the victims and transport them to Stewart Trauma Center M030 at way point M030B.
