

RTMM MedEvac Dispatch #E040B

Recommended Vehicle: Amphibian or Helicopter

Scenery Needed: ORBX PNW

* NOTAM: See Vancouver Plus Notam

Nature of Emergency:

- Car accident, neck injury, some paralysis. Needs immediate transport to St Paul's Hospital in Vancouver.

Starting Location: CYPW Powell River

- **Helicopter:** Helipad Start at CYPW
- **Amphibian:** CYPW – Parking 7

Location of Emergency:

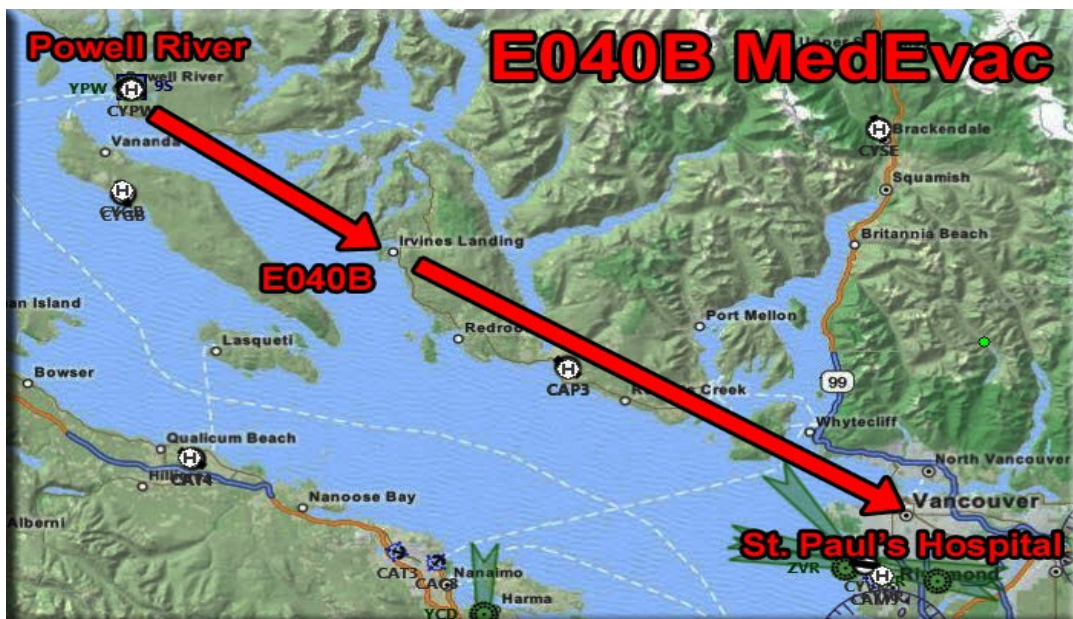

- N49 37.0052 --- W124 1.9910 --- Alt 10 Feet **Way Point:** E040B [Topo Map](#)
- Bearing from Start: 106° Distance: 26 miles

Medical Destination and Way Points:

- St Paul's Hospital Annex, Vancouver BC **Heli:** M034D **Amphibian:** M034D
- St Paul's Hospital (for Vancouver Plus): **Heli** M034V

Special Instructions:

- **Helicopter:** Start at CYPW (helipad). Set way point E040B in GPS. Land on Road near Orange Smoke. Pick up victim and proceed to St Paul's Hospital in Vancouver landing on the hospital helipad. Medical Destination way point is M034H. (Or with Vancouver Plus, you can use way point M034V).
- **Amphibian:** Start at CYPW on Ramp 7 or at the Fuel Box. Set the GPS way point for E040B. Land in nearby water, taxi to shore for victim pickup. Fly to Vancouver and drop off the victim at the St. Paul's Hospital Medical Dock, way point M034D.

- **Vancouver Plus Notam:** If you have Vancouver Plus, you may use the M034V way point that takes you to the VC+ hospital helipad. Or you may use the M034D way point that takes you to the area of the “annex,” the new hospital we have put in for the Medical Facilities project.
- The St Paul's Hospital Vancouver Plus Annex is obviously fictional. But by placing this hospital near the medical dock on the water, this Medical Facilities projects is fully compatible with VC+. We will not be putting a “reception” committee at the real St Paul's Hospital (in VC+).
