

RTMM MedEvac Dispatch #E043H

Recommended Vehicle: Helicopter

Scenery Needed: ORBX PNW

Nature of Emergency:

- Worker has fallen from radar tower while doing maintenance. Multiple fractures and in critical condition. Must be transported immediately to Port Hardy Hospital (M013)

Starting Location: Alert Bay CYAL

- **Helicopter:** CYAL Helipad

Location of Emergency:

- lat="N50 26.9325" lon="W128 2.5974" alt=830 feet waypoint=E043H [Topo Map](#)
- Bearing from CYAL: 240° Distance: 49.7 miles

Medical Destination and Way Points:

- Port Hardy Hospital Helipad: M013H

Special Instructions:

- **Helicopter:** Fly from the helipad at Alert Bay (CYAL) on a heading of 240° for 50 miles to the Quantisno Light area. The Lighthouse is on a small island. Look to the north at the tallest mountain just across the water from the island. You will see a radar tower on the top. Orange smoke is deployed so you can pick up a single victim that has fallen while doing maintenance on the radar tower. A red cross of blankets has been placed in the best landing zone. Fly the victim to Port Hardy Hospital at Waypoint M013H.
