

IF YOU ARE A NEW RTMM USER AND HAVEN'T DOWNLOADED THE RTMM REQUIRED OBJECT LibrariesFSXP3D PART I, PLEASE IGNORE THIS DOCUMENT AND FOLLOW THE INSTALLATION PROCEDURES CONTAINED WITHIN THE RTMM REQUIRED OBJECT LibrariesFSXP3D PART I DOWNLOAD.

This information pertains only to users who have installed the RTMM Required Object LibrariesFSXP3D Part I prior to 1-31-15.

RTMM has added 2 additional sets of objects and textures to the AhZx sub library inside of the RTMM Required Object LibrariesFSXP3D Part I. This updated library set adds missing objects for users who have the RTMM Required Object LibrariesFSXP3D Part I and also own the OZx YMRY Moruya scenery package.

The object libraries added to the AhZx sub library are:

FSXP3D kh_grasses2_LIB.bgl

FSXP3D kh_YMRY_LIB.bgl

It is necessary for all users who have installed the RTMM Required Object LibrariesFSXP3D Part I prior to 1-31-15, to redownload the updated RTMM Required Object LibrariesFSXP3D Part I, even if you don't own the OZx YMRY Moruya scenery package. The reason for this is that RTMM scenery developers may incorporate objects contained in the added libraries in future scenery designs.

NO OTHER CHANGES OR ADDITIONS HAVE BEEN MADE TO THE RTMM REQUIRED OBJECT LibrariesFSXP3D PART I OTHER THAN CORRECTING SOME FILE DATES AND DATES WITHIN THE README FILES.

The installation process for users who maintain a non-consolidated library system is simple and straightforward. If you maintain a consolidated library system, skip to step C1 below.

1. Locate AhZx_LIB SUB LibraryFSXP3D in your Addon Scenery folder.
2. Extract the contents of RTMM Required Object LibrariesFSXP3D Part I_1-27-15 to a temporary location on your hard drive.
3. Paste the newly extracted AhZx_LIB SUB LibraryFSXP3D into the folder you located in step one. When asked if you want to copy and replace any files, say yes.

Installation is now complete, you don't need to do anything with any of the remaining files in this distribution package, and the contents of the unzipped file package can all be safely deleted.

If you maintain a consolidated library system, follow these instructions.

- C1. Extract the contents of the RTMM Required Object LibrariesFSXP3D Part I to a temporary folder on your drive.
- C2. Navigate to your consolidated scenery folder. Copy the contents of the AhZx_LIB SUB LibraryFSXP3D 1-27-15 scenery folder to your consolidated scenery folder. When asked to copy and replace any files, say yes. Only the new files will be added.
- C3. Copy the contents of the AhZx_LIB SUB LibraryFSXP3D 1-27-15 texture folder to your consolidated texture folder. When asked to copy and replace any files, say yes. Only the new files will be added.

Installation is now complete, you don't need to do anything with any of the remaining files in this distribution package, and the contents of the unzipped file package can all be safely deleted.
