

# Summit Lake Resort

*for*  
*Return to Misty Moorings by Doug Linn*

## **Welcome to Summit Lake Resort**

This location is on a high mountain lake with a tricky air approach ... water landing only. The location consists of a base lodge with 5 outlying A frame cabins. There is a sailboat and a small motor boat for cruising the lake ... as well as canoes.

**Location** ... it is an easy flight from Misty's Place or PAKT, about 20 minutes by air.

**Instructions:** Add to your addon scenery folder then activate in FSX. A flight plan (pln) is included in the folder.
