

RTMM's "Refresh 2019" Campaign – Updated Scenery Listing

The following will be an updated listing of the updated/refreshed **RED** Exclamation Mark scenery listing as well as the **GREEN** Check Mark scenery listing.

Explanation: When you see a RED Exclamation Mark, it means there is a new, refreshed version of the scenery available that you can download using the zip button at the scenery location.

(If your favorite scenery has a Red Exclamation Mark, it doesn't mean that what you already have will stop working. It simply means that there is a BETTER version available for you to re-download.)

When you see a GREEN Check Mark, it means a change was made, but the scenery files were not affected. Usually this means we updated the Readme text files. So there is no need to re-download the scenery files. If you have the location, you have the latest version.

For more information on the Refreshed Scenery update process see Doug's PDF:
