

RTMM MedEvac Dispatch #E044B

Recommended Vehicle: Any Vehicle ... for SEARCH
Scenery Needed: ORBX PFJ

Nature of Emergency:

- Coast Guard Petty Officer Lauren Steenson said the agency received a report around 2:15 p.m. that the plane was overdue. Troopers said an emergency locator transmitter activated in the Misty Fjords National Monument. This is a float plane, based in Ketchikan that carries 8 passengers and a single pilot. Search the area, if the plane is spotted, report exact location and possible rescue efforts needed.

Starting Location: PAKT ... for realism, use “Gray and Rainy” for weather and time of 3:15 pm, season, Summer.

Location of Emergency:

- Emergency Transmitter near Ella Lake Area
- Topo Map: [HERE](#)
- Bearing from Start: 046° Distance: 25 nm

Medical Destination and Way Points:

- (No Medical Destination, this is a Search Dispatch)

Special Instructions:

- Fly to the Ella Lake area and search the area for an aircraft. If it is found, radio back the exact coordinates and potential sighting of survivors so the necessary rescue equipment can be mustered and transported to the potential site.
