KIAS about 80 -100 kts, altitude as indicated
VFR APP_003_scenic_flight_Sitka_Area.pln
(Default Beaver optimized)

A29 Sitka SPB (PASI Sitka)

-PP16 Blue Lake Hydro Lake Hydro

-PP15 Takatz Lake Hydro

-PP Thayer Creek Hydro

PAJ1 SPB (PAJN Juneau Intl.)

- Start at Sitka and climb to 2000ft.
- On the port side you see the Blue Lake sealevel facilities.
- Shortly after, at port side as well you see the construction area of the Blue Lake Expansion project.
- Climb to **3700ft.**
- Reaching the icefield at wpt12 reduce speed to about 80 kts.
- Getting cleared of the mountains you see Takatz dam at port.
- As you turn to port, descend to **2700ft.**
- At starboard side Takatz dam is coming into sight again.
- A little later you see the sea facilities at starboard side.
- Descend to **1500ft** and follow Chatham Strait at cruising speed to north until Angoon. Lining up to the shoreline reduce speed, you see the powerline track and the Thayer Lake Hydro Plant facilities at starboard side.
- After passing the plant head for Juneau and land.
