

BWEP Dispatch #P004S

Recommended Vehicle: Tundra Aircraft or Helicopter
Scenery Needed: ORBX SAK

Nature of Problem: Supply Dispatch. Critical electrical component needed at Pump Station #11.

Starting Location: Valdez or Copper Center

Special Instructions: Critical Electrical Component needed at Pump Station #11, in Section 2 (See Web Page Map). There is a small, rough airstrip beside two large storage tanks to the east of the complex. The personnel needing the component are waiting beside a pickup truck and have put out an orange smoke marker for you. Start at Copper Center or Valdez (your choice) and deliver the component to PS11. You can use way point P004W for the pump station.
