

# BWEP Dispatch #P006E

**Recommended Vehicle:** STOL Tundra or Helicopter  
**Scenery Needed:** ORBX SAK

**Nature of Problem:** Fire near the pipeline.

**Starting Location:** Copper Center

**Special Instructions:** Smoke has been spotted by a high-flying aircraft. It is located about 5 miles south of Copper Center Airport and within 1 mile of the BWEP Pipeline. There is water nearby, if a water-carrying helicopter is available, they might be able to put out the fire. If in a fixed wing aircraft, report the exact position of the fire, land nearby if possible and bring out any people who might need rescue.
