

BWEP Dispatch #P014E

Recommended Vehicle: Helicopter, Amphib, Winter Ski, Tundra

Scenery Needed: BWEP Richardson Highway (latest update)

- ORBX Vector
- ORBX Base

Nature of Dispatch: Man has fallen off a scaffolding at a temporary work site where repairs are being made on the pipeline. Start at PAGK and fly to way point P014E on your GPS. If heli, there is a temporary landing spot, if amphibian, land in river. If winter a tundra or ski can land on the ice on the river. Pick up the patient and transport to the medical facility at PAXK (Paxson).

Starting Location: PAGK Gulkana

Special Instructions: There are two orange smoke flares. One is where the the river landing aircraft would park, the other is at the temporary helipad.
