

Spoiler's Lodge at Rampart (RMP)

Here is “Spoiler's Lodge” at Rampart, AK (RMP). This scenery is fictional. The lodge has been added to the RMP airport complex and is situated on beautiful and wild Yukon river. The scenery consists of a small lodge and 4 associated small cabins. As we create the BWEP pipeline, we are adding “off the circuit” locations to give you places to fly “off” the pipeline circuit. Spoiler's Lodge is one of these.

Spoiler's Lodge at Rampart, AK

The name comes from a book by Novelist Rex Beach who moved to Rampart during the Klondike Gold Rush; although his prospecting efforts were of little success, the experience led to the publication of *The Spoilers*, one of three novels written by Beach that made it to Publishers Weekly list of bestselling novels in the United States in the 1900s. Film adaptations of *The Spoilers* were released in 1914, 1923, 1930, 1942, and 1955.

There are very few “outlying” locations in this area of the world. There simply are no lodges or cabins as we are used to in our other RTMM areas. But there are airports ... and a lot of them. Some are very well done by ORBX as “standard”. Basically runway and taxiway with a building or two. What we are going to do is “fix up” the airport, adding buildings and objects and put a lodge “nearby”. That way you can enjoy flying in this part of the world, navigation is easy because the lodges are near the airports. And the bonus is, you get an “updated” airport as part of the lodge scenery.

You can start at the dock by using: $N65^{\circ} 30.7657'$ - $W150^{\circ} 9.2936'$ Heading: 150° . This is “ice” in fall, winter and spring, water in summer. Or you can use the GO TO AIRPORT function in your sim and start on the runway. There is a road connecting the lodge to the airport complex.
