

MFS0002 - The Alaska Glacier Series (MSFS): Whittier (PAWR) to Whitehorse (CYXY)

This trip is a glacier exploration trip from [Whittier](#), Alaska via some of the rugged and scenic glaciers, rivers and lakes which surround the [Chugach National Park](#). Sixteen legs later we will reach our destination of Whitehorse Yukon, Canada.

Tour Download

Tour download for this MFS0002 excursion is available from the Downloads section and contains add-on scenery and flight plans (.pln and lnmpln formats). For those seeking a navigational challenge to negotiate the route by way of dead reckoning and marking landmarks sky-vector maps links for each leg have been provided.

Please feel free to stop at, touch and go or fly-by any mid-airport locations along the route of the flight legs (outlined in the Cigar Box notes). There are some great spots along the way! I hope you thoroughly enjoy "flying the terrain" in this excursion.
