

RTMM Lighthouses of AK

By Doug Linn

Return to Misty Moorings has been a part of the flight simulator community for almost 20 years. We've come through FS9, FSX, and P3D and now we are deeply into Microsoft's FS2020. Our operational area is basically Alaska in the Misty Fjords area where we have established our "Misty Moorings" scenery packages. We have created over 600 locations, mostly cabins, and Sea Plane Bases that duplicate the real world. All of our locations are FREEware and can be downloaded with an EXPRESS PACKAGE from [RTMM's Website](#).

One of the many features of the site is the "RTMM Lighthouses for AK". Using SketchUp and MCX for model conversion, we can finally create "likenesses" of the beautiful AK lighthouse structures. We try to make our scenery locations as realistic as possible. We give each of our locations a fictional ICAO so you can navigate to it quickly and efficiently. The buildings are all very similar. The focus of our work is on the lighthouse structure itself making it as realistic as possible.

We have added helipads for our helicopter pilots, many are fictional. Often, in real life, a helipad is present just for maintenance, but sometimes there is no indication of one from Google Earth. In those cases, we have added one. This document's purpose is to give you an opportunity to see the lighthouse work RTMM has completed and to document future progress. Mostly, this document consists of screenshots so you can see the realism involved in the project.

Document Index:

Page 1	Document Information and Index
Page 2	Cape Decision, Cape Hitchenbrook, Cape Sarichef
Page 3	Cape Spencer, Cape St-Elias, Eldred Rock,
Page 4	Fairway Island, Five Finger Light (TF05), Guard Island,
Page 5	Lincoln Rock, Mary Island, Minor Light,
Page 6	Point Retreat, Point Sherman, Scotch Cap,
Page 7	Sentinel Island, Tree Point, KNOWN PROBLEMS
Page 8	Installation Instructions
Page 9	Copyright Information

AK Lighthouse in Alphabetical Order

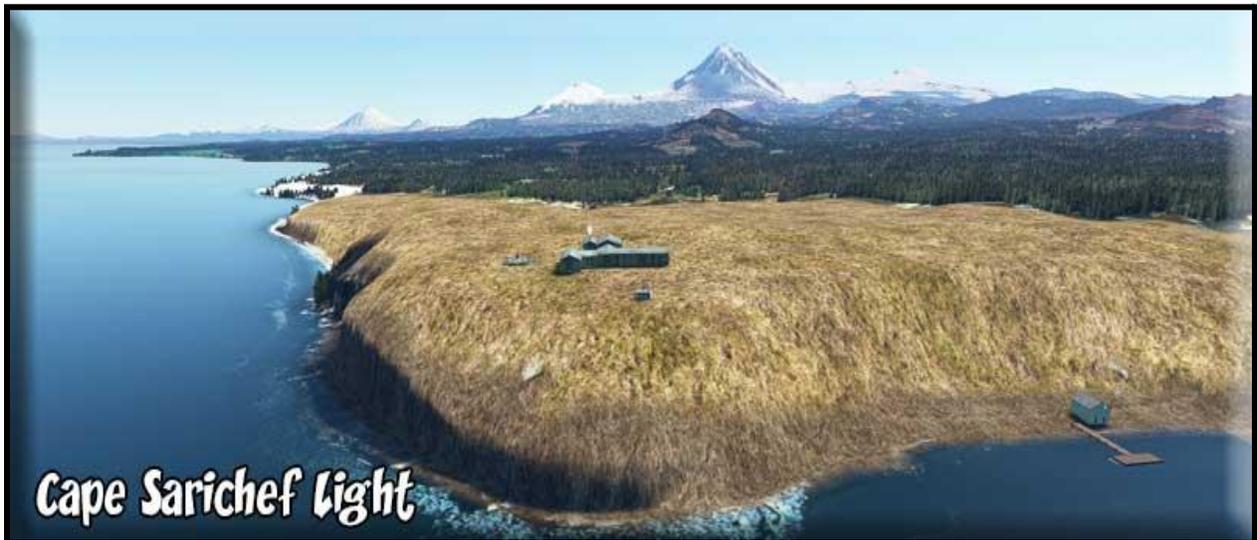

Cape Decision - TF01 (One of the Tongas Fjords Docks locations)

Cape Hitchenbrook - CHLI

Cape Sarichef - CSLH

AK Lighthouse in Alphabetical Order

Cape Spencer - CPSL

Cape St Elias - CPEL

Eldred Rock Light - ERLS

Fairway Island - FILH

AK Lighthouse in Alphabetical Order

Fairway Island Lighthouse - FILH

Five Finger Light - TF05 (Part of Tongas Fjords Docks program)

Guard Lighthouse - GUAR

AK Lighthouse in Alphabetical Order

Lincoln Rock Lighthouse - LRLH

Mary Island Lighthouse - MALH

Minor Light - ODIA (Odiak Light of Cordova)

AK Lighthouse in Alphabetical Order

Point Retreat - PIRL

Point Sherman - PISH

Scotch Cap - SIL3

AK Lighthouse in Alphabetical Order

Sentinel Island - SIL2

Tree Point - TPLH

KNOWN PROBLEMS

1. **Cape Decision Light** - this one is a fictional layout, not like the actual one which is very sparse. This is part of the Tongass Fjords Docks (A) series and was created for a different reason.
2. **Five Finger Light** - This terrain is as close as we could get to the real thing. We are using the Mousa Rocks as foundations for the island. You will not see this correctly if you have not installed all of Asobo's World Updates.
3. **Scotch Cap Light** - the old lighthouse was hit by a 100' tsunami, now it is only a skeleton tower with a flashing light on it. There is a large building "above" the light. It shows on Google Earth, so we left it in, but we have no idea what it is. Supposedly all of the buildings were destroyed and the 1950s buildings were replaced by the skeleton tower.
4. **Mary Lighthouse-Tree Point Lighthouse** - Both of these still exist as concrete structures but they have been abandoned. I've taken the liberty to fix them up as they

AK Lighthouse in Alphabetical Order

KNOWN PROBLEMS CONTINUED...

would have looked had they been restored. There was a 60-foot diameter wooden helipad in front of Tree Point Lighthouse that was wiped out in a storm. I have restored that and the walkway that went over to it. So there is a bit of fiction involved in these. (But if I had the money and time, I'd buy them and paint them and make them look just like those I've created for you!).

5. **Helipads and Docks** - Where a dock or a helipad is indicated in Google Earth, they are put exactly where they should be. However, if none are displayed, I've still put in a dock or a helipad. These, of course, are fictional, but they make this more fun for the RTMM fans flying these locations.
6. **Yellow Interiors and Streetlights** - my technique for "lighting" the windows on the structures at night is to paint the entire inside of an object yellow. Then put a streetlight inside the building that turns on at night. The result is lighted windows. To see this, look at Five Fingers Lighthouse - TF05.

INSTALLATION:

There is an **EXTENSIVE** combination of scenery locations, simobject repaints and navigational plans for the various sims.

This scenery is for **MSFS (Microsoft Flight Simulator (2020))**

Return to Misty Moorings Presents: Lighthouses for AK_by RTMM for MSFS

ZIP File: Use Winzip, Winrar, 7zip or an alternative compression program to extract the zip file. (Compressed using Winrar 6.02 64bit)

When the zip file is extracted contains this readme file and a master scenery folder **rtmm-lighthouses-ak-jdl-v1.6** containing the folders and files for the Lighthouse for AK scenery plus a **Documentation-FP** folder.

The **Documentation-FP** contains all of the details of the scenery, lighthouse indexes, ICAOs for each lighthouse, information regarding each of the 16 lighthouses, a complete flight plan circuit of the lighthouses of British Columbia as well as a shortcut link to a Google map index of all the lighthouses. (The flight plan can be used in the sim as well as in LittleNavMap or Plan G or a similar mapping application.)

Scenery Prerequisites:

RTMM Object Library (Required): LINK:

https://return.mistymoorings.com/z20_scenery/index.php

Windy Things (by trfst0): LINK: <https://flightsim.to/file/14024/windy-things>

Lighthouses for AK-By RTMM: Scenery Installation:

Extract the scenery folder zip direct to the community folder (or extract to a temporary directory/folder and place (or link) folder " **rtmm-lighthouses-ak-jdl-v1.6** " into the default

AK Lighthouse in Alphabetical Order

MSFS community folder. Link the scenery, Restart the sim and you will have the lighthouses present identified by their ICAO. (Refer to the index document for the ICAO)

Adding scenery identifiers (ICAO) to LittleNavMap or Plan G:

For LittleNavMap or Plan G or similar mapping application: after linking or placing the scenery folder `rtmm-lighthouses-ak-jdl-v1.6` in the community folder:

LittleNavMap-Select MSFS and Load Scenery Library.

Plan G - Select MSFS and Build Database.

After the scan/build database is complete, the lighthouses will be available in your mapping software using their ICAOs. (Refer to the index document for the ICAO)

We hope you thoroughly enjoy having the Lighthouses for Alaska in MSFS.

Be sure to get all of the RTMM Add-on Scenery for MSFS: from Airports and Seaplane Bases to cabins, dockages, lodge locations, to AI ships traffic, and more. Join us at https://return.mistymoorings.com/z20_homepage/index.php for scenery, liveries, ai components, a forum, our Misty Flying Club Virtual Airline, and much more.

A Misty Flying Club, excursion will definitely be in order to fully explore all of these lighthouses. If you like flying/logging your bush trips in Alaska, British Columbia, Yukon, NWT, PNW, Washington and the vicinity of, please join us at Misty Flying Club.

Stay tuned for more at RTMM and MFC.
