

Sea Otter Sound Lodge – PF03

Sea Otter Sound Lodge is a very popular fishing resort 100 miles north of Ketchikan, near Port Alice. From their website:

Accommodations: *Your room is finished in either the richness of red cedar or the elegance of blue pine. The rooms are spacious with cathedral ceilings, a large window and well thought out themed décor that matches the theme of the rooms such as the Orca Room, Halibut Room, Sea Otter Room, Wolf Room, etc. All rooms have a large bathroom with a separate hand washing/dressing room area. Seven rooms have 2 beds and 3 of our rooms have a queen bed with a classic desert cedar bunk bed for the grandfather, son, and grandson, or husband and wife with 2 children.*

All rooms have fantastic views of Sea Otter Sound. It is common to see Humpback whales, eagles and of course, Sea Otters, from your room or the party float out in front of your room. On the party floats, you can relax with a drink and share fishing stories with the other fishermen at the lodge. The boat that you will be using during your stay with us is just outside the door of your room. Eat, Sleep, Fish. Your fishing vacation could not get any better than this.

Fishing: *In the remote Alaskan waters of Sea Otter Sound, we offer self-guided fishing for the adventurous independent angler which includes husbands and wives, grandparents and grandkids plus many fathers and sons or daughters. Monster halibut, ling cod, king salmon, silver salmon, pink salmon, yellow eye or black bass, our goal is to give you the fish-catching adventure of a lifetime. We will tailor a package that fits your fishing abilities and preference.*

Without a doubt, this is one of our most popular packages! Designed for both the experienced angler and the novice, this is what our guests return year after year for. Imagine fishing without anyone else around except your fellow lodge guests. Humpback whales and eagles are your companions. The silver salmon bite is fast and furious. Before you know it, both you and your fishing partner are limited out with your six silvers apiece. Take them back to the lodge for processing, maybe a short nap, then back out for Ling Cod and Halibut! This is Sea Otter Sound magic!

We found an excellent web page for the Sea Otter Sound Lodge (excerpts above are from it). On it are many pictures and an excellent video. (WARNING: Do not watch the video if you are not planning to visit Sea Otter Sound Lodge ... the video will convince you to start looking for plane tickets!)

Every time we do a new location in FS2020, we learn something. On this one, the whole complex is floating, so the dock system we used are all floating docks (rather than the piers with stationary legs down into the water). We also learned how to “erase” the white splotches that are present in the satellite image we use (Thank you Kevin Lewis, See FACT page for Water Texture). This is probably the closest rendition we could possibly make with the objects we have available for placement. And all objects are available only because of the hours of work by Rod Jackson. It takes a team to make something like this happen!
