

Silver King Lodge - by Doug Linn Ketchikan AK

“Silverking Lodge is the ultimate global destination for salmon and halibut fishing. Ketchikan is known for being the Salmon Capital of the World, and Silverking Lodge is perfectly situated on premier fishing waters for an epic fishing expedition. Did you know that all five pacific salmon species travel directly through Silverking waters? Waste no time and get straight to fishing on the same day you arrive.

On the internet, it is both “Silverking” and Silver King”. So we are going with a little bit of both!

The lodge is located about 20 miles northwest of Ketchikan on Grant Island. It is accessible by float plane, boat, and helicopter in RTMM.

The scenery is low-light friendly, with all docks and important areas lit for the low-light conditions of this area.

***Installation: Unzip the folder and put it into your Community Folder.
NOTAM: You cannot “search” for “Silverking” or “Silver King” to find this location. Use the ICAO (SKL1) and it will be found. This is an anomaly in FS2020 Development and no one has yet figured out the cause of the problem.***
